

St. Olga Repairs

Church Building Improvement Project

The back wall of St. Olga Church has been damaged by a persistent water leak. We need to remove part of the St. Vladimir Entry Steps & Landing above, repair the leak and rebuild the landing. In addition, we want to take this opportunity to install a new door and wheelchair ramp into St. Olga Church from the south and enclose it. This would make St. Olga handicapped accessible.

Our target for Phase 1 is **\$25,000**.

PLEASE GIVE GENEROUSLY FOR THIS WORTHY CAUSE.
